

SUBJECT: USE OF SCHOOL FACILITIES, MATERIALS AND EQUIPMENT**School Facilities**

It is the policy of the Board to encourage the greatest possible use of school facilities for community-wide activities. This is meant to include those uses permitted by New York State law. Groups wishing to use the school facilities must secure written permission from the Board of Education or its designee and abide by the rules and regulations established for such use including restrictions on alcohol, tobacco and drug use.

The District reserves the right to charge a fee for the use of its facilities in a manner consistent with law, and on terms specified in regulation or by agreement with such organizations.

Exterior Lighting and Sound

The Board recognizes that exterior lighting of school district property is a part of Facility and Grounds use in the evening hours, as well as an important component of the District's safety plan. The Board directs the superintendent, in consultation with appropriate district staff, to develop an approach to exterior lighting and sound that meets the following standards:

1. Maximizes energy efficiency
2. Minimizes noise and sound spillage to neighboring properties
3. Complies with town and police ordinance
4. Meets industry standards for safety and effectiveness
5. Supports the use of building and grounds, including athletic fields, in accordance with the district's educational, extracurricular and interscholastic programs.

Materials and Equipment

Except when used in connection with or rented under provisions of Education Law Section 414, school-owned materials or equipment may be used for school related purposes only. Private and/or personal use of school-owned materials and equipment is strictly prohibited. The loan of equipment and materials for public purposes that serve the welfare of the community is allowed, as long as the equipment is not needed at that time for school purposes and that the proposed use will not disrupt normal school operations.

The Board will permit school materials and equipment to be loaned to staff members when such use is directly or peripherally related to their employment, and to students when the material and equipment is to be used in connection with their studies or extracurricular activities. Community members will be allowed to use school-owned materials and equipment only for educational purposes that relate to school operations. The Board will also allow the loan of equipment to local governments and other entities that benefit the welfare of the surrounding community. The Board supports such inter-municipal cooperation as it saves taxpayer monies and is a more efficient use of scarce or costly equipment and resources.

SUBJECT: USE OF SCHOOL FACILITIES, MATERIALS AND EQUIPMENT (Cont.d)

The District will develop administrative regulations to assure that use of school-owned materials and/or equipment complies with the letter and spirit of this policy, including a description of the respective rights and responsibilities of the School District/lender and borrower in relation to such materials and equipment.
